

WASHER TOSS GAME SET UP AND RULES

YOUR WASHER TOSS GAME

WOODEN WASHER TARGETS (2)

BLUE WASHERS (4)

RED WASHERS (4)

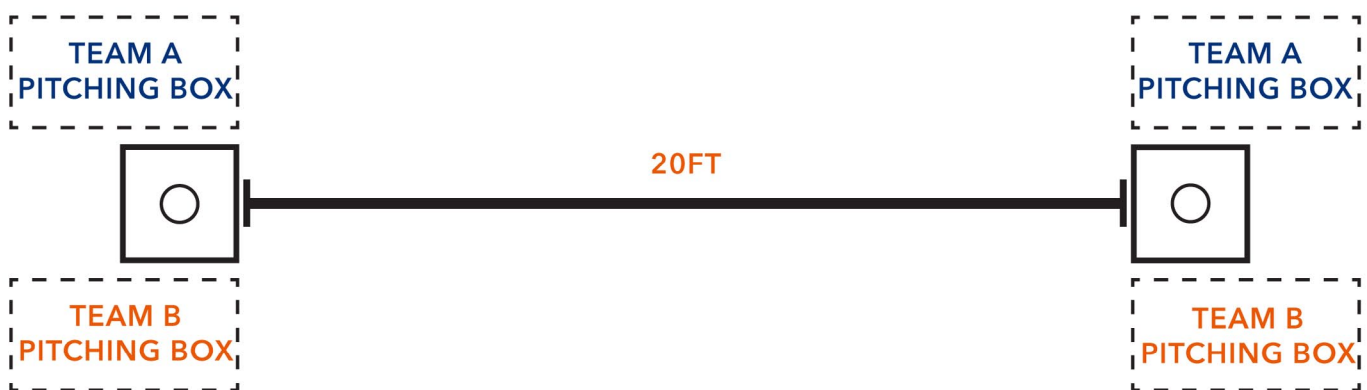

SETTING UP YOUR WASHER TOSS GAME

In a flat open space, place your two wooden targets 20 feet from each other, or approximately 7 paces. You can change this distance base on player ability or ease/speed of game desired. You can play with 2 individual players or teams consisting of 2 players per team.

The washers are made of metal and can damage objects or people who are impeding or surrounding the playing area. Be sure your game is set up with plenty of free space surrounding the area.

Individual play: Both players throw to the same washer target, but rules and scoring are the same for both individual and team play

Team play: Players on each team stand at opposite sides and throw towards each other's washer target.

PLAY

To determine the start, each payer tosses one washer toward the opposite target, closest to the hole starts first or you can decide by a coin toss. Players alternate tossing their washers until all 8 have been thrown. Remember that one foot must stay behind the box you are throwing from during all throws. The team that scores the highest points will begin the next round.

SCORING

A washer landing in the center scores 3 points

A washer landing anywhere inside the box scores 1 point

A washer landing anywhere else is not counted and has 0 points

Points cancel out so if you both land in the cup no points are scores. The highest points win the round. Only one team or player can score in any given round.

If team A scores 4 points and team B scores 6 points. Team B wins the round and team A scores 0 for that round. The first team to 21 wins.

There are many different variations to scoring washer toss and you can decide on your own house rules to make the game as challenging/Easy or Long/Quick as you feel for the types of players and game situation.

CARE

Your washer toss game is made from solid birch wood. Avoid getting the games wet, or leaving them outside. Wipe clean after each use and make sure they are dried out before storing away. We suggest that you only use Rally & Roar washers to play your washer toss game as any other objects or different type of washers could possibly damage your game.

Rally & Roar washers are made from metal and when tossed at the birch game board will over time bang up the target boards.

This is all in fun with playing, these bangs and dents show that you are having fun and using your game!

If items fell out of the box (this happens) or anything is damaged in shipping (shipping companies are rough on packages), no need to get upset and start writing bad things, just send us a quick email and we will get you taken care of ASAP
